

Deep TMS Benefits

- Non-invasive, localized treatment
- No systemic effects
- No drug-related side effects
- Treatments are 20 minutes, 5 days a week for a total of 30-36 treatments in general
- Complete remission in 30-50% of patients and significant decrease in symptoms in another 25%
- Most insurances cover the cost except Medicaid
- FDA Approved
- No memory problems associated with the treatment
- The treatments, when effective, have long lasting benefit
- Many patients can become medication free
- Very effective option for refractory depression (1/3 of all depressions)
